CHICAGO, January 5 .- Diminishing receipts, particularly in the northwest, had builish effect on the wheat market today, overcoming the influence of a decline in foreign quotations. The weather southwest was warmer, but the absence of moisture in that direction favored promoters of higher prices. Cash demand was reported as improving decidedly, and many dealers were counting on receipts continuing small for some time. The opening was ¼a%c lower to %c higher. May started at 98 to 98%c, the same as

Complaints that the Argentine rains came late and were insufficient strengthened corn. Receivers reported farm sales small. Country feeders were good buyers. May opened a shade off to %a%c up at 48% to 49, and rose to 491/2. Oats were in demand on account of the upturn in common. May opened unchanged to 1-16c lower at 34 to 341/8, and advanced

to 341/4 a 34%. Provisions at the outset were easy in consequence of a decline in the hog market. Purchases by stock yard firms. with values ranging from a point above to ¼ below New York's closing.

The gains disappeared under Wall street selling, and the market closed undecided.
